Plant with Confidence: Your 2026 Growing Season Starts Here

In an ever-changing agricultural landscape, diversification is key to resilience. For your 2026 planting season, we've partnered with growers across the region, conducting strip trials on diverse farms to understand how our portfolio performs under a wide range of real-world conditions. These 2025 results aren't just data; they're a powerful tool to help you mitigate risk, capitalize on opportunity, and confidently choose the right seed for your operation. Let's explore the numbers together to find the perfect fit for your farm.
